ABOUT ME

I'm a 22-year-old **UI/UX designer** with **2+ years** of experience who believes great design isn't just about how it looks, it's about how it feels. I love turning complex problems into simple, intuitive experiences that make people's lives easier and maybe even a little happier. Always curious, always iterating, and always keeping users at the heart of it all. I thrive on collaboration, creativity, and the little details that turn good designs into great experiences.
